EDUCATION

University of Texas at Austin   Austin, TX

Bachelor of Science in Computer Science   Expected graduation date: May 2018
Minor in Business

Cumulative GPA: 3.33

Languages Studied: Java, C/C++, Python, HTML/CSS, JavaScript, JSON, x86-Assembly

EXPERIENCE

American Express   Phoenix, AZ
Software Engineering Intern – Loyalty Membership Rewards   Summer 2017

- Developed Java-Maven code to verify membership reward-point requests to REST API Dropwizard applications
- Pushed code through the DevOps flow using Jenkins and XL-release to both the cloud (PaaS) and to manual IAAS boxes
- Tested REST calls using Postman and wrote JUnit tests
- Created technical flow diagrams in Confluence
- Participated in daily SCRUM meetings and story planning sessions

University of Texas   Austin, TX
Teaching Assistant – Data Structures   Spring 2017

- Taught data structure concepts in a weekly discussion setting to 25 students
- Held office hours, graded assignments, and proctored exams
- Contributed to weekly meetings with the professor and other teaching assistants to discuss and define the structure of the course

The Home Depot   Austin, TX
Software Engineering Intern – IT Service Management   Summer 2016

- Developed code with the IT major incident team to improve software used during critical server outages
- Consolidated several data streams into one central CMDB dashboard within ServiceNow platform
- Contributed to the team's JIRA, Confluence, and related tools used in an Agile environment

Abbott Diagnostics   Irving, TX
Software Testing Intern – Research & Development Group   Summer 2015

- Performed and wrote software tests in a lab and on a computer simulation to help develop Clinical Chemistry and Immunoassay diagnostic products
- Worked with JSON and PuTTY to develop and debug tests and used JIRA / Bamboo to file and track defects
- Gained exposure to an FDA-regulated lab and Agile setting
